Europe since 1945 is an exciting new survey of the history of Europe since the end of World War Two in the second half of the twentieth century. Europe has known a period of peace and stability unprecedented in its history and virtually unparalleled in the rest of the world. Europe explains the reasons for this state of affairs, thought provoking and wide ranging. This book discusses political, economic, social and cultural change in modern Europe, covering both Western and Eastern Europe comprehensively and featuring extensive analysis of the 1990s. This book includes examination of the Cold War, war at the edges, Northern Ireland and Yugoslavia, the European Union, the issues of nationalism, the end of the dictatorships, economic prosperity, the EEC and the Euro, the break up of the European empires and the consequences.

British Politics since 1945 offers a comprehensive overview of postwar British politics, ideal for introductory students and general readers alike. The book balances a narrative of the major events and personalities of the postwar political scene with a critical assessment of the recurrent issues and concerns of political debate. It also analyses the main ideological perspectives operating within party politics since the Second World War from the right, the centre and the left, showing how these dominant groups have viewed developments and expressed their ambitions over the last fifty years. Succinct chronological account complemented with critical thematic assessment of ideas covers central topic on all introductory politics and postwar history. Extensive use of tabular material and appendices for reference.

A comprehensive survey of international affairs from the end of the Second World War through to the Cold War and up to the present day provided by publisher.

Since the collapse of Eastern European Communism, the Balkans have been more prominent in world affairs than at any time since before the First World War. Crises in the area have led NATO to fire its first ever shots in anger whilst international forces have been deployed on a scale and in a manner unprecedented in Europe since World War Two. An understanding of why this happened is impossible without some knowledge of the history of the area before the fall of Communism, of how the Communists came to power and how they used their authority thereafter. Covering the Communist states of Albania, Bulgaria, Romania and Yugoslavia and including Greece, Richard Crampton provides a highly readable introduction to that history, one that will be read by journalists, diplomats and anyone interested in the region and its impact on world politics today.
