with the ongoing restructuring in sudan structural issues such as the need for skill development
and interaction with technological change need an in depth analysis that this book offers the
central themes of this book are required skill formation upskilling of the workers and their
interaction with technological change in lieu of a deficient educational system and its implications

an empirical investigation of the causes and consequences of low skill and technology indicators using a primary survey at macro and micro levels is undertaken this is followed by an examination of the interaction between the low skill and technology indicators the relationships between skill upskilling and technology indicators skills mismatch the uses and impacts of ict and differences at firm as well as industry level as well as knowledge transfer effects a set of recommendations towards the need for implementation of consistent policies increasing incentives and collaboration between public and private institutions completes the book

this book discusses skill formation upskilling of workers and their interaction with technological change in gulf countries heavy dependence on oil the dutch disease and the high incidence of unskilled foreign workers have caused serious structural imbalances in the labour market in the gulf the author shows that success of economic development strategies to address such imbalances are all contingent upon the development of adequate and appropriate skills in the region this book confirms the role and impact of the deficiencies in the educational system alongside the well established effects of the excessive use of uneducated foreign workers and lack of incentives in the labour market a comprehensive investigation of the skill problem and an elaborate in depth analysis to assess the causes consequences and relationships between poor skills and technological performance are highlights of this book this is an ideal resource for policy makers in the gulf region and researchers of the topic

in the words of warren buffett the more you learn the more you will earn in this game changing book you will discover the new cutting edge approach to your development the stuff that they should have taught you in school but didn't bogdan juncewicz has spent the last 5 years studying researching learning with and most importantly teaching thousands of people in multiple countries and continents around the world powerful business and life strategies in this book bogdan uses his expertise and in depth research of the highest achieving people to share proven and actionable strategies that anybody can start using almost instantly to radically accelerate and increase the effectiveness of their development this book is not about making learning and skill development easier it's about sky rocketing its effectiveness

education and skill development the need of the nation in the 21st century is a book written by dr nadeem malik an indian entrepreneur and social worker and published by the filmy charcha a news and media publishing agency based in mumbai

vocational skill development vsd has the capacity to contribute to poverty reduction because it serves as the key to job creation and inclusive growth as developed nations have been faced with high youth and graduate unemployment rates basic education and vocational skill

development have become a priority of development cooperation activities however there is a realization that measures to improve skill training can only be successful if they are in harmony with employment and economic policies socio economic perspectives on vocational skill development emerging research and opportunities is a collection of innovative research on the methods and applications of equipping individuals with relevant work skills and implementing effective skills systems that can lead to economic growth and high levels of productivity while highlighting topics including human capital professional development and skill gaps this book is ideally designed for managers business professionals policymakers academicians researchers and management students seeking the current understanding of the strategic role of skill development at different levels of the socio economic system

the last decade has seen radical changes in higher education long held assumptions about university and academic autonomy have been shattered as public and political interest in quality standards and accountability have intensified efforts for reform the increased influence of the state and employers in the curriculum of higher education is exemplified by the increasing emphasis on so called core or transferable skills an emphasis supported by the dearing report which identified what is called key skills as necessary outcomes of all higher education programmes however there is little research evidence to support such assertions or to underpin the identification of good practice in skill development in higher education or employment settings further prescription has outrun the conceptualisation of such skills little attention has been paid to their theoretical underpinning and definitions or to assumptions concerning their transfer
